

Bussing Guidelines for Students Riding the Bus to and from School

The following guidelines have been put into place to ensure the safety of your children while travelling to and from school. It is critical that you review them with your child(ren) and emphasize the importance of abiding by the guidelines.

- Parents must assess their child(ren) daily for symptoms of the common cold, influenza, COVID-19, or other infectious respiratory diseases before sending them to school
- Bus drivers will be taking the temperature of each student riding the bus prior to boarding – if a child has a temperature or exhibits any of the symptoms listed above they will not be permitted on the bus – students will be send home and parents will be notified of such
- Students must sanitize their hands prior to sitting on the bus
- Students will be assigned seating with a member of their household or classroom learning group
- All students will be required to wear a mask unless there is a valid medical reason as to why they are not able to. In this case, parents will need to provide the medical information to the school for approval by the Principal
- It is the responsibility of the student to have a personal mask – a non-medical disposable mask will be provided on the first day for those who do not already have one
- Eating, drinking and the use of electronic devices/cell phones on the bus will be prohibited
- Students will not be allowed to travel to or be picked up from a different location other than their regular stop
- Failure to abide by the bussing guidelines and respecting the safety of all those riding the bus will result in a loss of bus privileges

Be calm ~ Be safe ~ Be kind
